BEAD STOPPERS

Stop those beads from slipping! Bead Stoppers clip on the end of Soft Flex® and Soft Touch™ Wires.

Stress doesn't have to be a part of your next project. Eliminate the aggravation of beads slipping off your wire. Bead Stoppers are designed to keep your beads in place while you work. They are also wonderful to have handy when you need to put a design down, simply clip onto the wire and walk away. Being the innovators that we are, we helped to create Bead Stoppers with Soft Flex® Exclusive Grip Tips to make this product even easier to handle. With 9 color tips available you can add some color to your Bead Stopper. We also carry mini Bead Stoppers which are ideal for use with finer wire & threads.

Made in the USA

Bead Stoppers

SPEEDER BEADERS

Beading made faster! The Speeder Bearer needle makes threading hollow beads simple and fast.

Soft Flex® Speeder Beaders make threading Soft Flex® and Soft Touch™ wires fast and simple. Since hollow beads have no channel, there is nothing to guide the wire out of the bead and the wire often curls inside. Soft Flex® Speeder Bearer needles will make stringing these beads quick and painless. Just push Soft Flex® or Soft Touch™ wire into the pan at a 30-45 degree angle. The pan will guide the wire into the hollow part of the Speeder Bearer needle. Beads slip over the Speeder Beaders and onto your wire quickly and easily. It can be used repeatedly! If you work with big, hollow beads, this tool is an invaluable asset. Made in the USA
