

Soft Flex

Original

SOFT FLEX® WIRE

Simply the best! Soft Flex® Company revolutionized the beading industry by offering the first knot tying stainless steel wire.

Soft Flex® Wire is brought to you by state of the art, micro wire technology. Soft Flex® Wire is constructed of either 21 or 49 micro woven, stainless steel wires, braided together and then nylon coated. It is hypoallergenic, and since Soft Flex® Wire is marine quality, it can be worn in and out of salt and fresh water. Each diameter was designed to handle certain levels of abrasion, everything from soft materials like pearls and seed beads to rougher materials like glass, minerals and metal. *Made in the USA* 🇺🇸
