

Soft Flex

SOFT TOUCH™ WIRE

Soft as silk with the strength of steel! Same strength and durability as Soft Flex® Wire, with more flexibility.

The beading wire that redefined elegance, Soft Touch™ Wire is the most flexible wire on the market. 50% softer than our original wire, Soft Touch™ Wire drapes and feels like thread. Soft Touch™ Wire is available in 4 diameters: very fine, fine, medium and heavy with each spool clearly marking its appropriate use right on the label. Soft Touch™ Wire is supple enough that it can be knotted easily. Your designs will have the grace of silk and the strength of steel. *Made in the USA* 🇺🇸

The purpose of Soft Flex® Company's Soft Touch™ Wire is to offer exceptional flexibility.

Design using a thicker wire diameter, resulting in better longevity but not compromising flexibility. The thicker the wire, the better resistance to abrasion it will have.

SOFT TOUCH™ VERY FINE

Try the world's first stainless steel beading thread, available in 3 colors: satin silver, black and white. Designed for sewing, crocheting, knitting and stringing small precious stones, our very fine Soft Touch™ Wire .010 is constructed of 7 micro stainless steel wires. We do not suggest stringing heavy beads and stones, but it is wonderful for your finer gems. Very fine is as soft as a thread but with the strength of steel. For use with this product, we recommend 1x1mm Soft Flex® crimp tubes and micro crimping pliers.

Diameters: .010 in. (.25 mm), .014 in. (.36 mm), .019 in. (.48 mm) and .024 in. (.61 mm)

Lengths: 10 ft (3 m), 30 ft (9 m), 100 ft (30 m), and 1,000 ft (304 m)

(All colors are available in bulk)
